

SMOOTH BUBBLER

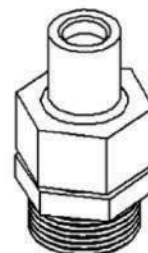

Technical features

EFFICIENCY ●●●●○
 VISIBILITY ●●●●● SOUND LEVEL ●●●●○
 WIND RESISTANCE ●●●●○ SPLASH / MIST ●●●●○

Smooth Bubbler nozzles create a soft, aerated water effect with minimal splash and noise.

They are ideal for shallow fountains and landscape features, producing a calm and elegant bubbling pattern.

When combined with lighting, they deliver a vibrant and dynamic visual experience, perfect for modern fountain designs.
