

## Swivel Connectors

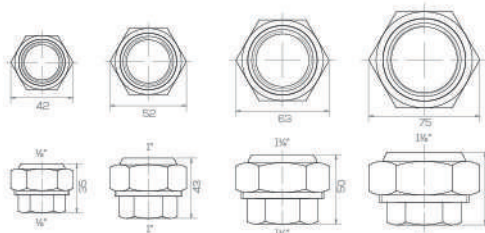

- Handy component for all nozzles without integral swivel .
- Offers precise directional alignment
- Made of AISI 304 Stainless Steel ( or 316 on request ) .
- Heavy Duty Construction .
- Easy installation .
- Professional & Reliable Solution .
- High corrosion & impact resistance .

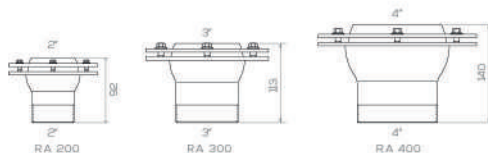

Swivel connectors are one of the most useful components for nozzles and fountain heads .  
These connectors offer precise & secure directional alignment of up to  $15^\circ$  off the center axis .  
All models are made entirely of stainless steel AISI 304 (or 316 on request) and vary from lightweight to heavy duty solutions with male or female thread .  
There are 3 types of swivel connectors for threads from  $1\frac{1}{4}"$  up to 6" .  
Swivel connectors are easily mounted to the bottom of nozzles and heads .
